

October 14, 1975

Forminco Corporation
Mr. Gordon Ford
Sulphurdale
Beaver, Utah 84713

Dear Mr. Ford;

Thank you for the opportunity to visit the Sulphurdale mine. Your operation is interesting, and we in the Division are glad to see another one of Utah's resources being developed.

As I promised, enclosed are copies of the Mined Land Reclamation Act, Rules to the Act, and forms MR-1 and MR-2.

As a sidelight, and possible market for your product, I have discovered that sulphur will be purchased for sulfuric acid plant in conjunction with the Alunite Plant in Beaver County.

Please remember the deadline for filing with the Division is July, 1977. If we can be of assistance to you please do not hesitate to contact us here in Salt Lake City.

Sincerely,

Ronald W. Daniels
Coordinator of Mined Land
Reclamation
